PROJECTS

Reports Generation

Report generation project for a law firm to manage bank data effectively

- The above page is part of a Report Generation System for a law firm, displaying bank details filtered based on selected criteria such as bank name, branch, status, and date range.
- Users can open the filter drawer to apply or clear filters and view relevant bank information accordingly.

Invoice Generation

Invoice generation project created to assist with billing processes.

- The provided invoice page clearly outlines billing and shipping details, itemized products with prices, taxes, and total amount due, including a signature and terms for payment.

Portfolio

A personal portfolio project that highlights skills and experiences.

- A dynamic portfolio showcasing diverse skills and accomplishments, including design, development, and creative problem-solving.
- Highlights innovative projects, strong work ethic, and dedication to continuous growth in various fields.
